Bag Clips

*Easily fixed on to horizontal or vertical table and bar surfaces, the Grippa is in bright red to attract attention. It is aesthetically designed to suit the current interior décor of food outlets at the same time reducing scope for bag theft and loss of mobile personal possessions. A furniture accessory perfect for architectural specifications, especially for architectural firms who specialise in cafes, restaurants and bars, the Grippa is an accessory fit to make the vicinity, safe, secure and customer friendly.*

*The British Crime Survey shows that around 576,000 personal thefts occur per annum and the total cost of such offences is in the region of £410 million per annum. Home Office statistics also suggest that in the last period, bag theft and pick pocketing rose by 25%; other surveys show that around 11% of these crimes occur within a pub or bar.*
